

MAINLINE ULTRA FACEPLATE

Ultra's self draining back membrane eliminates the need for flashing, drip caps & end dams.

Ultra faceplate provides a leak proof, weather resistant, self draining barrier that eliminates leaks, drafts or the need for spray insulation.

Maintenance free white UV PVC faceplate provides a durable decorative plate that will not rust, rot, mildew, swell or peel, providing years of long lasting durability and beauty.

Spacer buttons provide space between walls and skin releasing any trapped moisture that may collect in wall cavity.

PATENT PENDING TECHNOLOGY

Easy contractor installation.

Concealed mounting brackets eliminate screws through the front face providing a professional look.

Continuous membrane and thick faceplate eliminates the need for drip flanges and end dams.

Flexible and easy to use.

Surface is paintable.

Easy decorative solution for all your building penetrations

Hose bibs, sumps, gas lines, vacuum lines

Singles or doubles, different orientations and sizes

Electrical

HVAC Systems

Blanks for any size for any requirement
